MARPOR Full Dataset 2014b: December 2014 Version

new data	whole election	Luxembourg 2013, Australia 2013, Armenia 2007, Georgia 1990, South Africa 2014, Mexico 2009/2012, Serbia 2014, Czech Republic 2013	
	whole election – replacing existing data	Germany 1998 / 2002	All codings replaced by more recent recodings. The former coding of the Green party in 1998 was based on a bad proxy document (see Chapter on “Coder Training: Key to Enhancing Coding Reliability and Estimate Validity” for more details on the recoding). Therefore we replaced it. As we prefer (if possible) to provide data from the one coder for all parties from one election, we replaced the other data as well.
	single parties – additions and updating of missing data	Italy 2013 Türkey 2007 Macedonia	Added manifesto of the South Tyrolean People’s Party (32904) Added manifesto for Democratic Society Party (74326) Added manifesto for Democratic Union for Integration (89940:2011), Socialist Party of Macedonia (89320:2008), Democratic Party of Turks (89920:2006)
changes	general changes	per301	The label of per301 was changed from federalism to decentralization to reflect more accurately the content of the category.
	on the election level	The edate variable for all elections from the update 2014a were wrong (by one day) and are corrected with this update. These concerns the following elections: Canada 2011 edate corrected	

	France 2012	edate corrected
	New Zealand 2011	edate corrected
	Slovakia 1998	edate corrected
	Switzerland 2011	edate corrected
	Portugal 1979	edate corrected
	Iceland 2013	edate corrected
	Bulgaria 2013	edate corrected
	Macedonia 2002, 2006, 2008, 2011	edate corrected
	Romania 2012	edate corrected
	Mexico 2006	edate corrected
	South Africa 1994, 1999, 2004, 2009	edate corrected
	Lithuania 2008	Totseats was corrected from 70 to 141.
	Turkey 2011	corrected eumember-variable from 0 (no member) to 20 (applicant)
	Macedonia 2006, 2008 and 2011	eumember was corrected to 20 (eu applicant)
on the party level at one election point	Lithuania 2008	Absseat incorrectly indicated only the seats from the proportional tier. We corrected absseat to cover seats from the proportional and the majoritarian tier.
	Luxembourg 2004 / 2009	Codes 101 and 102 should not be used in Luxembourg, quasi-sentences with these codes were recoded which causes small changes in some per-categories. Partyid for the Green Party in 2004 and 2009 was corrected from 23114 to 23113.

MARPOR Full Dataset 2014a: August 2014 Version

new data	whole elections	Bulgaria 2013; Canada 2011; France 2012; Iceland 2013; Macedonia 2002/2006/2008/2011; Mexico 2006; New Zealand 2011; Romania 2012; South Africa 1994/1999/2004/2009; Switzerland 2011
changes	general changes	<p>The coding of missings was changed:</p> <ul style="list-style-type: none"> - Missing Information / Not Applicable is now coded as “.” for continuous variables (testresult, coderyear, pervote, presvote, absseat, totseats, perXXX, peruncod, total, rile, planeco, markeco, welfare, intpeace). <p>Missing data in categorical variables (parfam, coderid, manual, progtype) was not changed. It is still coded as 998 (not applicable) and 999/99 (missing information).</p> <p>The following observations were accidentally deleted with the 2013b version due to a programming error:</p> <p>New Clean Government Party (71530) 2003; New Clean Government Party (71530) 2005; New Conservative Party (71626) 2003; Peace and Democracy Party (74325) 2011; ZL Joint List Bloc (81899) 2000; United Opposition (National Council/Rights) (84041)2008; Bidzina Ivanishvili – Georgian Dream (84042) 2012; Republican Party of Georgia (84440) 2008; Christian-Democratic Movement (84530) 2008; SzDSz Alliance of Free Democrats (86422) 2002; FiDeSz-MPP/MDF Alliance (86429) 2002; Labour Party and Youth (88042) 2008; Liberal Movement (88450) 2008; Order and Justice (88460) 2008; Homeland Union (88621) 2008; National Resurrection Party (88630) 2008; Palikot's Movement (92440) 2011.</p> <p>All observations were reincorporated in this dataset version.</p> <p>We changed the country abbreviations in the label of the party variable to international iso standard abbreviations.</p>

corrections	On the election level	<p>Georgia 2003/2004</p> <p>Bulgaria 1994, Slovakia 1998, Latvia 2002, Germany 1976/1980</p> <p>Greece 2004</p>	<p>The documents in the dataset coded as Georgia 2004 were mainly written for the election in 2003. We changed the election date, pervote, seats, etc. for most of these manifestos to the 2003 values. Moreover, we discovered some of the real 2004 manifestos and coded these documents as well (see above). But be aware that the 2003 election was annulated. In contrast to our general guideline to focus on (rather) democratic elections, we still provide data for this election for the simple reason that the data is already coded and it might be – despite the undemocratic character of the elections – be useful for researchers interested in Georgian politics.</p> <p>edate was corrected.</p> <p>The incorrect usage of subcategory 6014 (Cyprus-issue) in three manifestos (34313, 34511 and 34210) was corrected. Note: per6014 should only be used in Cyprus. Sentences in this category were recoded to per101 and per102.</p>
	on the party level at one election	<p>Front National 31720 (France 2002)</p> <p>DSP Democratic Left Party 74324 & ANAP Motherland Party 74623 (Turkey 2002)</p>	<p>pervote was corrected.</p> <p>We decided to drop both observations because both parties gained no seats at this election and both observations were only duplicates (proctype = 3) of the codings from 1999.</p>
